

How to Drive Through a Roundabout

ALWAYS YIELD TO ALL CIRCULATING TRAFFIC

YIELD The "Golden Rule" of roundabouts.

When you enter the roundabout you must yield to circulating traffic.

Drivers in the circle have the right-of-way. An approaching motorist has to wait for a safe gap in the flow of traffic before entering.

KEY

-  Stopped/At Fault
-  Yielding
-  Circulating

Enter only when there is a safe gap in traffic.

Drivers must yield to pedestrians and bicyclists using the crosswalks.

Yield to all traffic coming from the left.

Circulating traffic has the right of way. Continue to your exit and do not stop within the roundabout.

The entering driver (red) is at fault due to failure to yield to the circulating vehicle (green).

The driver in the inside lane of the roundabout can either exit or continue circulating. Entering vehicles must yield to **all** traffic coming from the left.
